PROJECTS

RentGuide

HTML · CSS · JavaScript

Rental property discovery platform for the Canadian market

- Designed and built a full client-side rental search platform with a landlord-facing property management dashboard, enabling property listing, communication tools, and tenant inquiry flows
- Implemented rental affordability calculators and moving-cost guides to support user decision-making across the rental process
- Engineered a responsive, mobile-first UI with clean UX patterns — optimized for usability across device sizes

PROFESSIONAL EXPERIENCE

Tim Hortons

May 2023 – May 2026

Food Service Supervisor · Kitchener, ON

- Supervised and scheduled a team of 8–12 employees across daily shifts, coordinating task delegation and coverage to maintain consistent service throughput
- Onboarded and trained new hires on food safety protocols, sanitation standards, and customer service procedures — reducing ramp-up time and compliance incidents
- Managed inventory procurement and quality control, placing orders and tracking stock levels to prevent service disruptions during high-volume periods
- Led team performance in a fast-paced, high-pressure environment — developing communication, conflict resolution, and time management skills transferable to agile development teams
